BMX Site
at the Churchstoke Recreation Field

In recent years it has been the regular practice of the Community Council to commission annual safety inspections of play areas.

This includes the BMX area at the recreation field.

Despite and some initial successes and enthusiasm of BMX groups, and repeated efforts by the community council to regenerate interest in work on the site, the safety inspections have been unfavourable.

As a result, the site has remained CLOSED for some time.

The experience and view of the community council is that interest and enthusiasm for the site users is not sustainable.

It is therefore the intention of the council to dismantle to site and to return the site areas to more general recreational use

CCC would like to acknowledge the efforts of all members of the community who contributed to or assisted with the BMX Site. Contributions were received from a number of sources and by a number of ways, and the community council is most grateful.
