Ref.	Applicant	Site	Description	rec.

**CCC objects to the application on the following grounds:*

- a) *Environmental Impact: the business development will be an unacceptable strain on the sewerage, drainage and flooding capacity of the area which is already problematic in these aspects. CCC notes the absence of an environmental impact assessment in the application and would like to see an assessment which demonstrates capacity of infrastructure to cope*
- b) *Traffic Impact: the business development will bring unacceptable client, staff and service traffic to an area accessible only by narrow single-track lanes. CCC notes the absence of a traffic impact assessment in the application and would like to see a traffic impact assessment which demonstrates adequate capacity of infrastructure to cope*
- c) *Emergency Services: the business development is in an isolate rural area at considerable distance and time from emergency services, with insufficient highways capacity to facilitate rapid attendance.*

For those reasons CCC is of the view that the location is unsuitable for such a business in a rural location, and therefore objects to such a change of use.
