25/0306/FUL	D & S Gethin, The Gaer, Forden	Land Adjacent To Broadway Hall, Snead, Montgomery, SY15 6EB	Creation of slurry lagoon and all associated works	O*

**25/0306/FUL: CCC objects to the application for the following reasons,*

- a) *Highways safety: the community council is of the view that the entrance onto the busy 60mph limit 'C' class road, which is the main link between the two main settlements in the community a popular route to Shrewsbury, is adjacent to a curve in the road already with restricted visibility. The community council is of the opinion that that heavy vehicular traffic using the entrance to service the lagoon will present an additional unacceptable hazard to other road users*
- b) *Scale and environmental regulation: the community council of the view that the size of the lagoon appears to be disproportionately large compared to the size of the adjacent fields so asks that the applicant seeks and heeds advice on this matter from environmental regulatory authorities*
- c) *Odour and visual amenity: the community council considers the lagoon and operations from it are likely to generate foul odour impacting on the nearby area and on the natural environmental beauty and amenity of the area which is also forms part of the local and tourism asset of the area*
- d) *Water and environment: the lagoon is in an elevated position. The community council is of the opinion this presents an unacceptable risk of downward seepage to small water courses and then into the River Camlad*
- e) *Lack of visual screening*
- f) *Lack of evidence of how the development would enhance biodiversity and the environment and protect open countryside*
- g) *Loss of hedgerow habitat appears to be excessive.*
